

API Delevan®

270 Quaker Road East Aurora, NY 14052

Dear Valued Customer,

This letter is to ensure you we are aware of the European Union (EU) REACH (Registration, Evaluation, Authorization, [and Restriction] of Chemicals) regulation that went into effect June 1, 2007.

API Delevan is a supplier to customers within the European Union. As such, we are required to confirm the chemicals, substances, and/or raw materials used by our company, in the manufacture of our products or supplied to us, meet the guidelines of REACH. Further information regarding REACH can be obtained from ECHA (European Chemical Authority). http://echa.europa.eu/home_en.asp.

REACH requires manufacturers of “articles”, such as electronic components, which may contain Substances of Very High Concern (SVHC) to disclose the use of those substances upon request by “downstream users”. To the best of our knowledge our products do not contain any of the listed SVHC (Reference SVHC-169 List) above the required concentration limits within the raw material, manufacture processes or within final product.

Authorized signatory for API Delevan,

Joseph Calkins

Joseph Calkins
Quality Manager
