

The Heart of Power and Motion

We give you the Power to get in Motion

Motion control drivers and Electrical Power distribution & protection

REDLER TECHNOLOGIES specializes in developing and supplying Electrical power and motion management solutions for Military platforms.

Our advanced **Rayon DC and BLDC motion control drivers** and the **Power Rider smart electronic circuit breakers** will help keeping your troops in motion, anywhere, anytime, under any harsh conditions!

Our vision

We help our customers reaching their operational goals in the battle field – tactics, maintenance, accuracy, durability, speed, precision with our innovative, patented motion drivers and Smart Power SSD circuit breakers.

POWER RIDER Game changing Smart electronic circuit breakers	RAYON wide range of Defense oriented motion control drivers	System design and manufacturing
<ul style="list-style-type: none"> • Smart EPD - Energy Power management • Single and multi-channel application • Solid state-based technology • 3 levels of protection – I²t, 1μ sec cuttof trip, thermal fuze • High redundancy – cascade option available • 25A-150A applications • GUI based configuration • Supports Power saving, weight reducing, scenario configurable 	<ul style="list-style-type: none"> • Increasing uptime • Multi-channel Energysaving applications • Brush and BLDC • Sensor-less technology • High power applications • Wide range of Defense oriented motion control drivers • Small Power applications • Military projects 	<ul style="list-style-type: none"> • R&D and integration special department • Designing and manufacturing Motor, pumps and actuator systems • Board design capabilities • Demo • Customization, system design and mass production

Product Lines

RAYON - Motion control drivers

Rayon HVAC driver
up to 60A

Rayon 300
300A driver

Rayon 40/70
40A and 70A continuous
game changer driver

Rayon Slim
and medium
applications driver, 20A

Micro Rayon Small
Miniature motion
control driver -12.5A

POWER RIDER - Smart electronic circuit Breaker

MC Power Rider
25A 12-channels
power circuitbreaker

Single Power Rider 25A
Smart, singe, innovative Solid
state circuit breaker

Single High Power Rider 150A / Power Rider 200A
High current, smart, strong, Solid
state circuit breaker

Applications

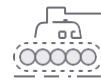

Mobile robots

Electrical vehicles

Landing gear, flaps pistons
and aviation electricity

Heavy Duty land
applications

HVAV

Drones Motors
Motion control

Special application -
Missiles, antennas,
gimbals, tracking

Ships motor drivers
and circuit breakers
