

## Experts in Asset Recovery

*Winslow Adaptics ensure you keep building when component manufacturers stop.*

One of the worlds' largest inventory and design banks of prototyping, test and component obsolescence adapters supporting thousands of integrated circuit packages from Advanced Micro to Zilog and everyone in between, past and present.

- *In-House Design and Manufacture to include DO254 for Civil Aerospace*
- *Swiss Auto Lathes for Rapid Manufacture of Custom Pin Sizes*
- *Adapters to Mitigate Component Obsolescence*
- *Adapters for Function Upgrades, Prototyping & Test*
- *Chip Carriers for Die Attach*
- *Custom Sockets*
- *Re-creation of Character Specific Intelligent LEDs*
- *Firmware and retargeting of analogue and digital ASICs into FPGA*
- *Custom and COTS Test Sockets to 0.3mm Pitch*
- *Reverse Engineering of Obsolete Connectors and Hardware*
- *COTS Sockets, Connectors and Jermyn Semiconductor Hardware*
