

RoHS Declaration

April 20, 2022

Dear Customers,

As of the above date, we confirm that no products sold by Evans Capacitor Company contains any of the RoHS material as identified in the RoHS directive 2011/65/EU published on June 8, 2011 or the RoHS 3 directive (EU)2015/863 published on January 05, 2022 with the exception of lead (Pb). Standard products sold by Evans Capacitor Company contain terminations that are plated with 60/40 SnPb. As a result, these products are 9/10 RoHS compliant.

Lead Free terminations are available on select product series. These lead-free products are fully (10/10 or 100%) RoHS compliant.

Best Regards,

Nicholas Tricarico
Application Engineer
Quantic Evans
